CEILING SUSPENSION SHADOWLESS OPERATION LIGHT  
(28" DIA. DOME WITH 7 REFLECTORS )

Due to continuous product improvement programmes, the technical specification are subject to change without prior notice.

Based on a modern hi-tech manufacturing plant incorporating State-of-the-Art tubular and sheet metal fabrication facilities and backed by an experienced work-force of skilled and semi-skilled technicians led by a professional management team, we have been providing standardised equipment to the hospital industry. This wide experience has helped us update our products to be on par with equipment in advanced countries and yet keep them economical. Our total range of equipment is available in powder coated finish or wholly stainless steel as per buyer's choice. While we strive constantly for product improvement, constructive suggestions from the medical fraternity are always welcome and we look forward to a healthy interaction with them, After all, Customer Satisfaction is the motto of our corporate philosophy and we often go to great lengths to achieve it.

catalogue are for reference only & their might be a slight variation due to printing limitation. Continuous design improvement is a routine practice at NEXUS, Data provided may change without any prior intimation.
